**McMINNVILLE
TENN.**

TERMS AND CONDITIONS

TERMS: Cash with order, except to persons who satisfy us as to their responsibility. Remittances may be made by bank draft, postal or express money order.

ORDER EARLY. Orders are filled in rotation. Ordering early will insure the reservation of varieties that later may be sold out, and save you any disappointment.

TIME OF SHIPMENT. Unless you give a specific shipping date, your order will be shipped to arrive at the proper time to plant in your locality. If you wish your order shipped at any special time please advise us.

PACKING. All plants are carefully packed to prevent drying or freezing while in transit. All packing charges are included in catalog list price except for specimen stock of unusual size, which will be at cost.

HOW TO SHIP. We prefer shipping by express, customer to pay the charges. If you prefer sending by parcel post, add 15 per cent to your order. This applies to evergreens and shrubs.

IN ORDERING please give plainly the name, post-office, and state. Always tell us how you want goods to come, and name your express or freight station. Make out orders on Separate sheet from your letter.

GUARANTEE. We guarantee all nursery stock furnished by us to be first class and true to name. We exercise the greatest of care to have all our trees and plants true to name, well grown, packed in the very best possible manner and hold ourselves in readiness on proper proof to replace all trees and plants that may accidentally prove untrue to label, free of charge or refund the amount paid.

We do not guarantee stock to grow, or results in any way. No complaints will be entertained that are not made immediately on receipt of stock.

SPRING SEASON 1930 TO OUR FRIENDS AND CUSTOMERS

We hope that this little edition fulfills its mission, and that is to make your place more fruitful and more beautiful.

We take pleasure in presenting you with this small catalogue, quoting prices on our nursery stock for Spring Season 1930. Our large 64 page descriptive Catalogue was mailed you last fall, and the prices quoted therein still hold good.

Our goal has ever been, not only to grow as good, or better, trees, evergreens, shrubs and roses, but to distribute them at reasonable prices direct to the planter. We sell direct from the nursery, freshly-dug, true-to-name trees, shrubs and evergreens. No agents are employed, consequently, their commission, usually about 40 per cent, is a direct saving for our customers, a very important item.

Our nursery business is founded upon honesty, service and the golden rule. We always try to see the other fellow's side of any transaction, treat him as a neighbor and do our level best to make every order he purchases from us pay him many times over its initial cost in beauty and satisfaction. Every one knows that misunderstanding is sure to appear in all lines of business. It does in our business, but we wish you to know that we always do the right thing by our customers, we play fair with all, which has won us many customers throughout the country.

Knowing that you will find it interesting and profitable to carefully read the following pages, and compare our prices with other reliable growers. And, extending our thanks to all our customers for their past patronage and asking that we may be remembered with at least a part of your wants for nursery stock the coming year, we are

Yours very respectfully,

BOYD NURSERY COMPANY,

F. C. BOYD, Manager.

ORNAMENTAL SHRUBS

Ornamental shrubs are extensively used in beautifying all homes. Homes, large and small alike, need the finishing touch given by planting to make them homelike and attractive. A small investment in planting pays for itself many times over by increasing the value of your property and your satisfaction in owning it.

ALMOND (*Amygdalus*)—Dwarf in habit of growth and in early spring the branches are heavily loaded with double, rose-like blossoms. We can furnish either pink or white, please specify color wanted.

	Each	Per 10
18 to 24 inches.....	\$.35	\$3.00
2 to 3 feet.....	.50	4.00
3 to 4 feet.....	.75	6.50

ALTHEAS (*Hibiscus*) ROSE OF SHARON—Tall slender shrubs which are admirably suited for hedges or screening purposes. Will bloom from early summer until frost. There are many varieties and colors, both double and single, and our list below covers the colors nicely:

Anemonaeflorus. Large, double red.
 Amplissima. Double, rosy red, blooming early.
 Ardens. Double purplish blooms.
 Boule de Feu. Fine double red.
 Bicolor. Double white with red markings.
 Joan of Arc. Pure white and very double.
 Lady Stanley. Semi-double, white shaded to rose.
 Pulcherimus. Flowers of variegated tints.
 Paeoniflorus. Double white with carmine center.
 Assorted single varieties, mixed colors.

Prices on above varieties:

	Each	Per 10
18 to 24 inches.....	\$.20	\$1.50
2 to 3 feet.....	.30	2.50
3 to 4 feet.....	.40	3.50

AMORPHA FRUTICOSA (*False Indigo*)—A strong growing shrub, having compound feathery foliage and spikes of indigo-colored flowers. Blooms early in June.

	Each	Per 10
2 to 3 feet.....	\$.25	\$2.00
3 to 4 feet.....	.30	2.50
4 to 6 feet.....	.50	4.00

ARONIA (*Chokeberry*)—A perfectly hardy shrub with particularly attractive sage green foliage, coloring to vivid red in the fall. The small white flowers are followed by berries. Prefers a moist location. We can furnish both the *Arbutifolia* and *Melanocarpa*.

	Each	Per 10
18 to 24 inches.....	\$.25	\$2.00
2 to 3 feet.....	.35	3.00
3 to 4 feet.....	.50	4.00

A proper planting of the shrubs, trees and plants is just as essential to the home as a beautiful stage setting is to a successful play.

BARBERRY (*Berberis*)

BERBERIS THUNBERGII (*Japanese Barberry*)—

A dwarf shrub from Japan. Leaves small, bright green, changing in autumn to beautiful tones of orange, scarlet and crimson. Yellow flowers in early April, followed by red berries, which last the entire winter. A popular shrub for hedges.

	Each	Per 10
12 to 18 inches-----	\$.15	\$1.25
18 to 24 inches-----	.25	2.00
2 to 3 feet-----	.40	3.50

BUDDLEIA VARIABILIS (*Butterfly Bush*)—

Flowers of a deep shade of violet, plant is also tall grower. Blooms from June until frost, and is very ornamental. Will die back in the fall, and dead wood should be trimmed off near the ground, then new shoots will spring up the following spring.

	Each	Per 10
18 to 24 inches-----	\$.35	\$3.00
2 to 3 feet-----	.45	4.00
3 to 4 feet-----	.65	6.00

CALLICARPA AMERICANA (*Beautyberry*)—

With purple berries produced in clusters; very effective in fall and early winter. Moist, loamy soil best suited to its requirements.

	Each	Per 10
18 to 24 inches-----	\$.30	\$2.50
2 to 3 feet-----	.40	3.50
3 to 4 feet-----	.65	6.00

Shrub-Althea Rose of Sharon

Boyd Nursery Company

CALYCANTHUS (Sweet Shrub)—The native sweet or brown shrub. Flowers double, chocolate-colored, very fragrant. Blooms in early April and lasts for several weeks.

	Each	Per 10
12 to 18 inches-----	\$.35	\$3.00
18 to 24 inches-----	.50	4.50
2 to 3 feet-----	.75	6.00

COMPTONIA ASPLENIFOLIA (Sweet Fern)—A low shrub with fernlike foliage. Well adapted for massing on rocky banks and sandy stretches.

	Each	Per 10
12 to 18 inches-----	\$.25	\$2.00
18 to 24 inches-----	.35	3.00

CORALBERRY (Indian Currant)—A native shrub growing 4 to 6 feet tall. Purplish-red berries are produced in great profusion, and will remain on all winter, furnishing food for the birds. Perfectly hardy in any soil.

	Each	Per 10
18 to 24 inches-----	\$.25	\$2.00
2 to 3 feet-----	.40	3.00

DOGWOOD (Cornus)

CORNUS AMOMUM (Silky Dogwood)—A spreading shrub with reddish purple twigs. The small white flowers in June are followed by blue berries.

C. LUTEA (Yellow-twiggged Dogwood)—The golden yellow branches afford quite a contrast to the other varieties.

C. PANICULATA (Gray Dogwood)—A handsome shrub with gray branches. Leaves narrow green, turning to a reddish purple in the fall. This variety grows more compact than others, making it desirable for mass planting.

C. SANGUINEA (Red-twiggged Dogwood)—A spreading shrub with deep red branches. Flowers greenish white, in dense flat topped clusters, berries black.

C. SIBERICA (Coral Dogwood)—Branches bright red, making an effective contrast in winter landscapes.

C. STOLONIFERA (Red-Ozier Dogwood)—A remarkably showy shrub, with bright red bark. The small white berries lasting into winter.

Prices on all varieties:

	Each	Per 10
18 to 24 inches-----	\$.20	\$1.50
2 to 3 feet-----	.35	3.00
3 to 4 feet-----	.50	4.00

CYDONIA JAPONICA (Japanese Quince)—One of the earliest blooming shrubs. Flowers vary from dark red to lighter shades of crimson, salmon and pink. Grows 3 to 6 feet tall, and does best in a sunny location.

	Each	Per 10
12 to 18 inches-----	\$.30	\$ 2.50
18 to 24 inches-----	.50	4.00
2 to 3 feet-----	.80	7.00
3 to 4 feet-----	1.25	10.00

DEUTZIA CANDIDISSIMA—A tall shrub, with numerous upright branches. Flowers double, pure white.

D. CRENATA—Grows 3 to 6 feet tall, and is covered in June and July with light pink, slightly fragrant flowers.

D. FORTUNEI—Erect branches with handsome broad, dark green leaves; pink flowers.

Boyd Nursery Company

D. PRIDE OF ROCHESTER—A very distinct, vigorous growing shrub. The white flowers, with pink shaded petals, are borne in June, and are very large and double.

Prices on above varieties:

	Each	Per 10
12 to 18 inches.....	\$.20	\$1.50
18 to 24 inches.....	.30	2.50
2 to 3 feet.....	.40	3.50
3 to 4 feet.....	.50	4.00

D. GRACILIS—A small shrub, usually about 2 feet tall. Leaves bright green; flowers white in graceful nodding racemes. Very showy.

	Each	Per 10
15 to 18 inches.....	\$.40	\$3.50
18 to 24 inches.....	.60	5.00

ELDER (*Sambucus Canadensis*)—American Elder. The well known Elderberry. A tall shrub, bearing small white flowers in broad, flat heads. The fruit is black and is borne in great profusion. A very attractive shrub.

	Each	Per 10
12 to 18 inches.....	\$.20	\$1.50
18 to 24 inches.....	.30	2.00
2 to 3 feet.....	.40	3.50

S. LACINIATA (*Cut-Leaf Elder*)—The foliage is deeply cut, and has a lacy appearance. Great handsome cymes of fragrant flowers in June and July are followed by large clusters of fruit.

	Each	Per 10
18 to 24 inches.....	\$.30	\$2.50
2 to 3 feet.....	.40	3.50
3 to 4 feet.....	.50	4.00

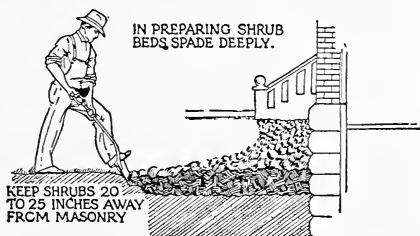

EUONYMUS ALATUS (*Cork-Barked Euonymus*)—A dwarf variety, compact in habit. Foliage small with yellowish flowers followed by red fruit. Foliage turns to brilliant red in Autumn.

	Each	Per 10
18 to 24 inches.....	\$.50	\$4.00
2 to 3 feet.....	.75	6.50

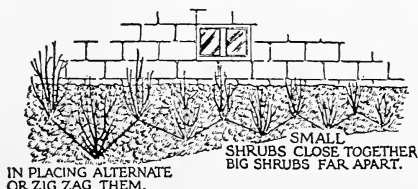

E. AMERICANUS (*Strawberry Bush*)—An upright shrub, with attractive foliage, reddish flowers and showy pink fruits.

	Each	Per 10
18 to 24 inches.....	\$.20	\$1.50
2 to 3 feet.....	.35	3.00

How to Plant Shrubs

SPACING SHRUBS

PLANT THREE OR MORE OF A KIND TOGETHER.

Boyd Nursery Company

EXOCHORDA GRANDIFLORA (*Pearl Bush*)—Very beautiful shrub where climate is not too severe. Large clusters of pure white flowers in May.

	Each	Per 10
18 to 24 inches.....	\$.40	\$3.50
2 to 3 feet.....	.60	5.00
3 to 4 feet.....	.80	7.00

FORSYTHIA (*Golden Bell*)

FORSYTHIA FORTUNEI—Upright growing, and often planted as single specimen. Dark green foliage and golden yellow flowers.

F. INTERMEDIA—Very erect growing, but will arch gracefully when full grown and bears clouds of deep yellow flowers.

F. SUSPensa—Has long drooping branches, covered with bright yellow flowers in April.

F. VIRIDISSIMA—A more bushy variety than others. Foliage a rich green, and blooms somewhat later.

Prices on above varieties:

	Each	Per 10
18 to 24 inches.....	\$.30	\$2.50
2 to 3 feet.....	.40	3.50
3 to 4 feet.....	.60	5.00

HYDRANGEAS

HYDRANGEA ARBORESCENS (*Common Wild Hydrangea*)—An attractive shrub, bearing white flowers in flat heads in early summer. Native plant of the mountains.

	Each	Per 10
18 to 24 inches, transplanted.....	\$.25	\$2.00
2 to 3 feet, transplanted.....	.35	3.00
3 to 4 feet, transplanted.....	.50	4.00

H. ARBORESCENS GRANDIFLORA (*Hills of Snow*)—Round heads of snowy white blossoms throughout the summer. Succeeds anywhere.

	Each	Per 10
12 to 18 inches, transplanted.....	\$.30	\$2.50
18 to 24 inches, transplanted.....	.40	3.50
2 to 3 feet, transplanted.....	.60	5.00

H. PANICULATA GRANDIFLORA—Well known variety. Its large, conical heads of white flowers become pink with age. Requires plenty of water and severe pruning in spring to produce large flowers.

	Each	Per 10
12 to 18 inches, transplanted.....	\$.30	\$2.50
18 to 24 inches, transplanted.....	.40	3.50
2 to 3 feet, transplanted.....	.60	5.00

Hydrangea P. G.

HYDRANGEAS (Cont'd)

H. QUERCIFOLIA (Oak-Leaved Hydrangea)—Very handsome shrub. Flowers in large panicles of creamy white. Foliage turns to glowering red in fall.

	Each	Per 10
18 to 24 inches, transplanted.....	\$.50	\$4.00
2 to 3 feet, transplanted.....	.65	5.00
3 to 4 feet, transplanted.....	1.00	9.00

HYPERICUM PROLIFICUM (Shrubby St. John's Wort)—Useful in border where low growth is wanted. Produces many flowers in midsummer.

	Each	Per 10
12 to 18 inches.....	\$.20	\$1.50
18 to 24 inches.....	.35	3.00
2 to 3 feet.....	.50	4.50

KERRIA WHITE (Rhodotypus Kerrioides)—A shrub of medium height, with small green foliage and white flowers in spring, followed by glistening black berries.

	Each	Per 10
18 to 24 inches.....	\$.40	\$3.50
2 to 3 feet.....	.50	4.50

LILAC (Syringa)

LILAC (Syringa) PURPLE—The well known old garden favorite, blooming freely in April and May. Excellent for screens.

L. WHITE—Same as purple in habits, only with flower of pure white.

L. ROTHOMAGENSIS—Strong, vigorous grower. Small, narrow leaves, and fragrant flowers which are deep reddish lilac.

Prices on above varieties:

	Each	Per 10
18 to 24 inches.....	\$.35	\$3.00
2 to 3 feet.....	.50	4.00
3 to 4 feet.....	.75	6.00

CHARLES X.—Single purple.

EDOUARD ANDRE—Double rosy purple.

JACQUES CALOT—Double reddish violet.

JEAN MACE—Double purple.

MICHEL BUCHNER—Double pale lilac.

MME. CASIMIR PERIER—Double white.

Prices on above French varieties:

	Each	Per 10
12 to 18 inches.....	\$.50	\$4.50
18 to 24 inches.....	.75	6.50

LINDERA BENZOIN AESTIVALIS (Spice Bush)—

One of the earliest of the blooming shrubs, small yellow flowers appearing as soon as frost is gone. Well adapted for planting in wet or moist soil.

	Each	Per 10
12 to 18 inches.....	\$.30	\$2.50
18 to 24 inches.....	.40	3.50
2 to 3 feet.....	.50	4.50

LONICERA (Bush Honeysuckle) BELLA ALBIDA—With white, sweet-scented flowers and bright red berries.

L. FRAGRANTISSIMA—Very early to bloom with pale pink flowers.

L. MORROWI—One of the handsomest. Wide spreading branches with especially good foliage, and white flowers. Bright red berries hang on all winter.

L. TARTARICA PINK—A tall shrub, blooming in May with light pink flowers.

L. TARTARICA ALBA—Similar to Tartarica pink in growth, but flowers are white. Berries that follow are very showy.

LONICERA (Cont'd)

L. TARTARICA RUBRA—This variety blooms in early spring, pink flowers, and at intervals during the summer. The red berries appear in the fall.

Prices on above varieties:

	Each	Per 10
18 to 24 inches-----	\$.25	\$2.00
2 to 3 feet-----	.30	2.50
3 to 4 feet-----	.50	4.50

PHILADELPHUS (*Mock Orange*)

PHILADELPHUS CORONARIUS (*True Mock Orange*)—Flowers are small, single and of delicious fragrance.

P. GORDONIANUS—Large white flowers appear late, making it very valuable for lengthening the flowering season.

P. GRANDIFLORUS—Flowers are large, also are leaves. One of the leading varieties for specimen planting.

P. MONT BLANC—Noted for its profusion of large fragrant blossoms. Dwarf in habit.

Prices on above varieties:

	Each	Per 10
12 to 18 inches-----	\$.15	\$1.00
18 to 24 inches-----	.25	2.00
2 to 3 feet-----	.35	3.00
3 to 4 feet-----	.50	4.00

PHILADELPHUS VIRGINAL—A beautiful variety, flowers are larger and more fragrant. Has long blooming season. Very compact in habit.

	Each	Per 10
18 to 24 inches-----	\$.60	\$5.00
2 to 3 feet-----	.80	7.50

LIGUSTRUM (*The Privets*)

PRIVET (*Ligustrum*) AMUR RIVER NORTH—This variety is very hardy. Makes a fine dense hedge, and will give satisfaction due to quick growth.

	Each	Per 10	Per 100
12 to 18 inches, branched-----	\$.10	\$.80	\$4.00
18 to 24 inches, branched-----	.12	1.00	6.00
2 to 3 feet, branched-----	.15	1.25	8.00

L. SINSENSIS (*Amur River South*)—Hardy as far north as Kentucky. Often called an evergreen hedge, and this is true if the winter season is not too severe. Makes a good hedge in one year.

	Each	Per 10	Per 100
18 to 24 inches, 1-yr. seedlings-----	\$.08	\$.60	\$3.50
18 to 24 inches, 2-yr. branched-----	.10	.80	5.00
2 to 3 feet, 2-yr. branched-----	.12	1.00	6.50
3 to 4 feet, 2-yr. branched-----	.15	1.25	8.00

PRIVETS (Continued)

L. OVALIFOLIUM (California Privet)—Thick, glossy green foliage, making a beautiful hedge. Can be used as single specimens.

	Each	Per 10	Per 100
12 to 18 inches, branched-----	\$.05	\$.40	\$3.00
18 to 24 inches, branched-----	.08	.60	5.00
2 to 3 feet, branched-----	.10	.80	6.50
3 to 4 feet, branched-----	.15	1.25	8.00

L. IBOTA (Ibota Privet)—A Japanese variety of beautiful character. Dark oval foliage and white flowers. Very hardy hedge plant.

	Each	Per 10	Per 100
12 to 18 inches, branched-----	\$.10	\$.80	\$ 6.00
18 to 24 inches, branched-----	.12	1.00	8.00
2 to 3 feet, branched-----	.15	1.25	10.00

RHUS AROMATICA (Fragrant Sumac)—A short-branched shrub, with striking leaves and yellow flowers in clusters. In fall foliage is a riot of brilliant scarlet.

	Each	Per 10
18 to 24 inches, branched-----	\$.45	\$4.00
2 to 3 feet, branched-----	.60	5.00

R. COPALLINA (Shining Sumac)—A tall shrub. Lustrous leaves which change to crimson in fall. Very effective in borders and background.

	Each	Per 10
2 to 3 feet-----	\$.25	\$2.00
3 to 4 feet-----	.30	2.50

R. COTINUS (Purple Fringe)—A very large shrub of striking appearance. The mass of misty flowers that cover the bush in June make it look like a great mass of smoke.

	Each	Per 10
2 to 3 feet-----	\$.60	\$ 5.00
3 to 4 feet-----	.80	7.00
4 to 6 feet-----	1.00	8.00
6 to 8 feet-----	1.50	12.00

R. GLABRA (Smooth Sumac)—A very ornamental small tree with smooth bark and attractive foliage in autumn.

	Each	Per 10
2 to 3 feet-----	\$.25	\$2.00
3 to 4 feet-----	.35	3.00

R. TYPHINA (Staghorn Sumac)—Grows in irregular bush form. The leaves are large and bright green, and become brilliant colored in the fall. Thrives in poor soil.

	Each	Per 10
2 to 3 feet-----	\$.20	\$1.50
3 to 4 feet-----	.30	2.50
4 to 6 feet-----	.50	4.00
6 to 8 feet-----	.75	6.00

ROBINIA HISPIDA (Moss Locust)—Highly ornamental shrub, with clusters of rose-colored flowers on long stems.

	Each	Per 10
18 to 24 inches-----	\$.35	\$3.00
2 to 3 feet-----	.50	4.00

Write us for prices and plan of arrangement for the
complete planting of your grounds.

SPIREAS

SPIREA (*Thunbergi*)—A low bushy plant, with very small leaves and starlike flowers in such profusion that in the early spring the plant looks like a mass of snow. One of the earliest bloomers.

	Each	Per 10
18 to 24 inches-----	\$.30	\$2.50
2 to 3 feet-----	.35	3.00

PRUNIFOLIA—(True Bridal Wreath). Strong, irregular growing; shining leaves coloring in autumn and diminutive, very double, roselike flowers borne in great abundance in April and May.

	Each	Per 10
18 to 24 inches-----	\$.25	\$2.00
2 to 3 feet-----	.35	3.00
3 to 4 feet-----	.50	4.00

VAN HOUTTEI—Blooming in April and May, the plant throws out long branches that curve and droop to the ground, weighted with a mass of pure white flowers.

	Each	Per 10
18 to 24 inches-----	\$.25	\$2.00
2 to 3 feet-----	.35	3.00
3 to 4 feet-----	.50	4.00

REEVESIANA—This variety grows 4 to 5 feet in height, throwing out long branches that curve gracefully and are covered with clusters of double white flowers.

	Each	Per 10
18 to 24 inches-----	\$.25	\$2.00
2 to 3 feet-----	.35	3.00
3 to 4 feet-----	.50	4.00

OPULIFOLIA AUREA—Very similar to the *Opulifolia*, but for the golden foliage. A very strong grower. White flowers appearing in June.

	Each	Per 10
2 to 3 feet-----	\$.35	\$3.00
3 to 4 feet-----	.50	4.00

Spiraea

SPIREAS (*Continued*)

OPULIFOLIA (*Ninebark*)—Very vigorous and upright with clusters of flat flowers, followed by red berries. The flowers appear during June.

	Each	Per 10
18 to 24 inches.....	\$.25	\$2.00
2 to 3 feet.....	.30	2.50
3 to 4 feet.....	.50	4.00

BILLIARDI—Makes a narrow, thick shrub, growing to 6 feet in height, bearing from July until frost, dense panicles of flowers. We have both the pink and white blooming Billiardi.

	Each	Per 10
18 to 24 inches.....	\$.20	\$1.50
2 to 3 feet.....	.35	3.00
3 to 4 feet.....	.50	4.00

ANTHONY WATERER—A low-growing, very bushy plant that bears small heads of bright crimson flowers in July and August. Valuable for planting in front of taller shrubs.

	Each	Per 10
12 to 18 inches.....	\$.35	\$3.00
18 to 24 inches.....	.50	4.00
2 to 3 feet.....	.75	6.00

CALLOSA—Dense, low-growing bushes, 3 to 4 feet high, with flowers in small flat heads. We offer two varieties of the Callosa, Alba-White, and Rosea-Pink.

	Each	Per 10
18 to 24 inches.....	\$.25	\$2.00
2 to 3 feet.....	.35	3.00
3 to 4 feet.....	.50	4.00

DOUGLASI—Flowers deep rose color. The blossoms are large spikes and very attractive.

	Each	Per 10
18 to 24 inches.....	\$.20	\$1.75
2 to 3 feet.....	.30	2.50
3 to 4 feet.....	.50	4.00

SNOWBERRY (*Symphoricarpos*)

RACEMOSUS (*White Snowberry*)—Those who plant gardens ought to give more thought to the wonderful beauty of the berry-bearing plants. This is one of the best; a shrub that grows 5 to 6 feet and has small, pink flowers, but its great attraction are the large, milk-white berries that form after the flowers drop. The berries last into midwinter.

	Each	Per 10
18 to 24 inches.....	\$.30	\$2.50
2 to 3 feet.....	.40	3.50

STUARTIA

PENTAGYNA—A shrub with spreading branches, usually growing 5 to 10 feet tall. Leaves are bright green in spring and summer, fading with glowing colors. Flowers white, with wavy rose-bordered petals and golden anthers, opening in summer.

	Each	Per 10
18 to 24 inches.....	\$.40	\$3.50
2 to 3 feet.....	.65	5.00
2 to 4 feet.....	.85	7.00

VIBURNUM

OPULUS (*High Bush Cranberry*)—A tall shrub with upright, spreading branches, 8 to 10 feet in height. Leaves broadly ovate, 3-lobed, bright green. Flowers white in late spring and early summer. Berries scarlet.

	Each	Per 10
12 to 18 inches.....	\$.40	\$3.00
18 to 24 inches.....	.60	5.00
2 to 3 feet.....	1.00	8.00

VIBURNUM (Cont'd)

OPULUS STERILE (*Common Snowball*)—A fine shrub, 8 to 10 feet tall, bearing globes of snowy flowers in May.

	Each	Per 10
12 to 18 inches-----	\$.35	\$3.00
18 to 24 inches-----	.45	4.00
2 to 3 feet-----	.65	6.00

PLICATUM (*Japanese Snowball*)—Upright, attaining a height of 6 to 8 feet, with spreading habit, bearing in May an abundance of white berries that have a wonderful setting in the dark green leaves.

	Each	Per 10
12 to 18 inches-----	\$.35	\$3.00
18 to 24 inches-----	.45	4.00
2 to 3 feet-----	.65	6.00

WEIGELA (*Diervilla*)

Most varieties grow quickly to an ultimate height of 6 to 8 feet, and with long, arching branches.

AMABILIS—Grows to about 6 feet, with rich, dark green leaves and very attractive, rose-colored flowers.

DESBOISI—The flowers are deep rose-colored. One of the best.

HENDERSONI—One of the strongest growing Weigelas, with large flowers of deep rose color.

MADAME LEMOINE—One of the very prettiest. Flowers blush changing to deep pink.

ROSEA—Best known and most popular variety. Deep pink blossoms, which are borne in wonderful profusion and make a great show in June.

Weigela

ORNAMENTAL DECIDUOUS TREES

There is a vast army of beautiful trees which shed their leaves in autumn. Among them are trees suitable for planting along streets and boundary lines, trees for woodlands and copses, for groves and for specimens, or merely to shade a corner of the back yard. Almost all of them are gorgeous where their leaves turn color in autumn and display an intricate and interesting pattern of bare branches against the winter sky.

They should be carefully planted, about two inches deeper than they originally stood in the ground, and should be well watered the first season.

ACER (*Maple*)—The maples are too familiar to need much introduction. They are all splendid, round-headed trees, some of which are especially adapted to street planting, and all of them are desirable as specimens.

Silver Maple

MAPLES (Cont'd)

DASYCARPUM (Silver Maple)—A very rapid growing tree of graceful habit. Light green leaves above and silvery beneath. Desirable for lawn or street planting. Will grow in poor and dry soil.

	Each	Per 10
2 to 3 feet.....	\$.25	\$ 2.00
3 to 4 feet.....	.40	3.50
4 to 6 feet.....	.65	6.00
6 to 8 feet.....	.90	8.00
8 to 10 feet.....	1.50	12.00

PLATANOIDES (Norway Maple)—One of the best shade trees for all purposes, whether in the lawn or by the roadside. A favorite street tree. Grows to large size and is of neat compact habit with round head.

	Each	Per 10
3 to 4 feet.....	\$.60	\$ 5.00
4 to 6 feet.....	1.25	10.00
6 to 8 feet.....	2.00	15.00
8 to 10 feet.....	3.00	

RUBRUM (Scarlet Maple)—Of excellent habit, with scarlet flowers in early spring. Dense foliage, turning to gorgeous colors in autumn.

	Each	Per 10
2 to 3 feet.....	\$.25	\$ 2.00
3 to 4 feet.....	.40	3.50
4 to 6 feet.....	.65	6.00

2 to 3 feet.....	\$.40	\$3.50
3 to 4 feet.....	.75	6.50

How to Plant a Tree

SET TREE IN TUB OF WATER WHILE DIGGING HOLE.

IMPORTANT: WE DO NOT ENCOURAGE THE USE OF MANURE. IF WELL DECAYED AND MIXED WITH SOIL IT SHOULD BE USED ONLY ON THE TOP.

NUT TREES

PECANS (*Carya Pecan*)

In recent years the pecans have become a very important nut, particularly in the southern and western states, and it may be said that there is no other nut tree which fits so well into the general farming of this region as the pecan. The planting of pecan trees has long passed the experimental stage, and a commercial grove of pecans, once it starts bearing, will continue to produce nuts and pay dividends long after most other crops have passed into discard. The pecan tree is different from most other trees, in that, the older the tree the larger the yield, hence the greater the profit. Properly handled pecan trees will begin paying dividends in from 6 to 8 years after planting, but, of course, a great deal depends on the care used in planting and the care the trees receive the first few years after planting.

FROTSCHER—Very large nuts, averaging from 45 to 50 to the pound, shell very thin, can be easily cracked with the teeth. Meat sweet and of fine quality, and can be removed from the shell.

MONEYMAKER—This variety combines early maturity and heavy productiveness, is a good grower and remarkably free from attacks of scab, budworm and other diseases that attack a great many of the best varieties of pecans.

SCHLEY—Medium to large; 1½ to 1⅞ inches long; oblong, slightly flattened; shell thin, plump, rich flavor, and a good grower. One of the best.

STUART—The hardiest and most widely planted of the lot. Large size, quality good, shell medium thin. Good grower, heavy bearer. One of the best for general planting.

SUCCESS—Resembles Stuart, but somewhat larger. Nuts thin-shelled, well filled, and of excellent flavor. Has more resistance to scab than other varieties.

Prices on above varieties:

	Each	Per 10
2 to 3 feet.....	\$.65	\$ 6.00
3 to 4 feet.....	.90	8.00
4 to 5 feet.....	1.25	10.00

CHESTNUTS

AMERICAN SWEET CHESTNUT

(Castanea Dentata)

A large, ornamental tree, with handsome foliage often planted for shade trees. The nuts are the sweetest of any variety.

	Each	Per 10
18 to 24 inches-----	\$.35	\$3.00
2 to 3 feet-----	.50	4.50
3 to 4 feet-----	.75	6.50

JAPANESE CHESTNUT (*C. Japonica*)—A small tree with a dense oval crown. Native of China and Japan. Leaves glossy green. Fruit very large, the nuts being over an inch wide. Will begin to bear when 6 to 8 years old. The nuts are not so sweet as those of the American Sweet Chestnut.

	Each	Per 10
2 to 3 feet-----	\$.75	\$ 6.50
3 to 4 feet-----	1.25	10.00

HAZELNUTS

(*Corylus Americans*)—The common native Hazel-nut grows well in this section, and produces quantities of nuts, which are sweet and of fine flavor. Very hardy.

	Each	Per 10
2 to 3 feet-----	\$.30	\$2.50
3 to 4 feet-----	.50	4.00

Nut trees in many cases pay better than farm products, while most kinds are making the growth of valuable timber, that will of itself pay a large per cent on the investment, besides the enrichening of the land.

Stuart Pecan

WALNUTS

BLACK WALNUT (*Juglans Nigra*)—Native tree of large size, produces large crops of delicious meaty nuts. The wood of the Black Walnut tree commands the highest price on the market because of its beauty and value in furniture making.

	Each	Per 10
12 to 18 inches.....	\$.20	\$1.25
18 to 24 inches.....	.30	1.75
2 to 3 feet.....	.40	2.25
3 to 4 feet.....	.60	3.25
4 to 5 feet.....	.90	6.00

ENGLISH WALNUT (*Juglans Regia*)—The English Walnut requires a rich, well drained, and stony soil. Never plant in hard, heavy clay, or soils which are not properly drained. The trees we offer are all grown from the best French seed and have been transplanted.

	Each	Per 10
18 to 24 inches.....	\$.50	\$4.50
2 to 3 feet.....	.75	6.50

JAPAN WALNUT (*Juglans Sieboldiana*)—The tree is very handsome, has large, spreading top. At three years of age the trees commence to bear. The fruit is shaped like the Butternut; shell thicker than that of the English Walnut. Hardy in all parts of the country.

	Each	Per 10
12 to 18 inches.....	\$.25	\$2.00
18 to 24 inches.....	.40	3.50
2 to 3 feet.....	.60	5.00
3 to 4 feet.....	.85	7.50
4 to 6 feet.....	1.25	

WHITE WALNUTS (*Juglans Cinera*)—Butternuts. A native fruit that is well known and highly prized, producing a large nut with a sweet, oily, nutritious kernel. Valuable for shade and ornament as well as for its nut yield.

	Each	Per 10
2 to 3 feet.....	\$.25	\$ 2.00
3 to 4 feet.....	.35	3.00
4 to 6 feet.....	.65	6.00
6 to 8 feet.....	.85	8.00
8 to 10 feet.....	1.25	10.00

The growing demand for nuts for table use and for commercial purposes is growing by leaps and bounds. No home should be without a few nut trees for home consumption.

BROAD-LEAVED EVERGREENS

A group of both small and large shrubs, with firm, hard leaves which are retained over winter. Most of them bloom beautifully, and some of them, the Rhododendrons and Kalmias, are most showy, while others are deliciously fragrant. They enjoy, as a rule, the light shade of nearby walls or trees, and thrive on a north slope where the winter sun does not damage their leaves, especially if slightly protected from hard, freezing winds. Most of them detest lime and should be grown in leaf-mold, mixed with peat, or some light soil not contaminated with lime or limestone.

ABELIA GRANDIFLORA (*Glossy Abelia*)—One of the prettiest shrubs. Its arching stems are clothed with dark glossy evergreen leaves. Small, fragrant tube-like flowers, shaded a light rose on the outside and white inside, are borne nearly every month in the spring and summer.

	Each	Per 10
12 to 18 inches.....	\$.40	\$ 3.50
18 to 24 inches.....	.60	5.00
2 to 3 feet.....	.85	7.50
3 to 4 feet.....	1.25	10.00

AZALEA AMOENA—Beautiful pink blooms borne in great profusion in May. Foliage rich bronze in winter. A superb variety growing 2 to 3 feet tall.

	Each	Per 10
10 to 12 inches.....	\$2.25	\$20.00
12 to 15 inches.....	2.50	22.00

BUXUS SEMPERVIRENS (*Tall-growing Boxwood*)—Is a formal shrub of dense, slow growth; trimmed they are unsurpassed as specimen plants for porch or lawn decoration. Leaves small, and a glossy green.

	Each	Per 10
12 to 15 inches.....	\$.75	\$ 6.00

Abelia Grandiflora

Boyd Nursery Company

SUFFRUTICOSA (Dwarf Boxwood)—A border plant of slow habit of growth and one that never attains a very great height. Ideal for bordering walks, gardens and for edging borders. May be kept trimmed.

	Each	Per 10
8 to 12 inches.....	\$.75	\$6.00

MICROPHYLLA (Quincy Berry)—A low-growing dense shrub with small round leaves, shining dark green in color. Berries bright red borne along the stem.

	Each	Per 10
10 to 15 inches.....	\$.75	
15 to 18 inches.....	1.25	

EUONYMUS JAPONICUS (Evergreen Euonymus)—A useful ornamental with green glossy foliage, standing heat and cold and very easy to grow. Can be used as a spreading plant in a group planting or against the house. Used quite a bit for hedges.

	Each	Per 10
12 to 18 inches.....	\$.75	\$ 6.00
18 to 24 inches.....	1.25	10.00
2 to 3 feet.....	2.00	18.00

ILEX OPACA (American Holly)—Without doubt, one of the most beautiful native trees. Rich glossy foliage, with bright red berries. The familiar Christmas Holly. Trees grow to a height of fifty feet, and are adaptable to every landscape.

	Each	Per 10
12 to 18 inches.....	\$1.00	\$ 8.00
18 to 24 inches.....	2.00	17.50
2 to 3 feet.....	3.00	25.00

KALMIA LATIFOLIA (Mountain Laurel)—A husky evergreen shrub, covered with large, glossy green leaves in clusters. Produces great quantities of delightful pink and white flowers in June. Perfectly hardy, and will thrive equally well on dry knolls, low land, and in partial shade.

	Each	Per 10
12 to 18 inches.....	\$1.75	\$15.00
18 to 24 inches.....	2.00	
2 to 3 feet.....	3.00	

LAUREL (Laurocerasus Caroliniana)—Carolina Cherry Laurel. One of the most beautiful broad-leaved evergreens. Glistening green foliage of medium shade. No recommendation can be too high.

	Each	Per 10
18 to 24 inches.....	\$2.00	
2 to 3 feet.....	2.50	

LIGUSTRUM (Japanese Privet)—A handsome evergreen shrub with thick, dark, glossy leaves. Small, creamy white blooms in early spring, followed by bluish black berries. Stands trimming well.

	Each	Per 10
12 to 18 inches.....	\$.50	\$4.00
18 to 24 inches.....	.75	6.00
2 to 3 feet.....	1.00	8.00

MAGNOLIA GRANDIFLORA (Southern Magnolia)—This is the grandest of all our native evergreen trees. Nothing more conspicuous can be seen among evergreens when its large, white flowers are fully expanded. Flowers appear about the middle of April and last until August.

	Each	Per 10
18 to 24 inches.....	\$1.50	
2 to 3 feet.....	2.00	
3 to 4 feet.....	3.00	
4 to 5 feet.....	4.50	

Boyd Nursery Company

NANDINA DOMESTICA—A beautiful shrub, with numerous reed-like stems springing from the same root. Leaves deep, glossy green, when young tinged with red. In winter beautiful coppery tones are assumed. The white flowers are followed by masses of bright red berries.

	Each	Per 10
15 to 18 inches.....	\$1.50	
18 to 24 inches.....	3.00	
2 to 3 feet.....	3.75	

RHODODENDRON CAROLINIANUM—The most beautiful of the native Rhododendrons, growing 6 to 8 feet high. The plants are well clothed with dark green leaves, rusty below and produce in early May a wealth of unusually large, rose-pink flowers in good sized clusters.

R. CATAWBIENSE—In late spring every branch has a large cluster of 1½ inch broad, rosy-purple blooms. The foliage is the most handsome of any Rhododendron.

R. MAXIMUM—The luxuriant growth of dark green narrow leaves, 6 to 12 inches long, give a delightful atmosphere. The light pink, or white, flowers are borne in large clusters and great abundance in June.

Prices on above varieties:

12 to 18 inches, transplanted clumps.....	\$2.25	\$20.00
18 to 24 inches, transplanted clumps.....	3.00	27.00
2 to 3 feet, transplanted clumps.....	5.00	45.00

Southern Magnolia

CONIFER EVERGREENS

There are no more beautiful things in nature than well-grown, well-cared-for evergreen trees. They are gracious and cool-looking in summer and cozy and comfortable in winter, adding just the proper touch of green amid the ice and snow to heighten the beauty of our landscape scene. They have become tremendously popular for home planting in recent years. 'Tis true, they have no flowers, but did you ever think the blossoms are only with us for a few days, while the foliage is evident for months?

There is no end to their uses, just as there is no end to their infinite variety. Probably the owner of a small place will find best use for the dwarfer, slow-growing types, which he can nestle around the foundation of his house, or group artistically at the corners of his steps, or in front of the porch. The larger place must have them for fine foliage groups, for wind breaks, for enclosing private portions of the grounds, for special formal treatment of various parts of his garden.

Cedrus Deodara

Write us for prices and plan of arrangement for the complete planting of your grounds.

Boyd Nursery Company

ABIES—FIR BALSAMEA (*Balsam Fir*)—A widely distributed tree of slender growing habit and great hardiness. The fragrant foliage is dark green above, silver beneath. The cones are of a purplish violet color.

	Each	Per 10
12 to 18 inches-----	\$1.25	\$15.00
18 to 24 inches-----	2.50	20.00

CEDRUS DEODARA (*Indian Cedar*)—Reaching large size, in pyramidal forms. Branches feathery, with foliage a beautiful shade of bluish-green. Is a good substitute for Colorado Blue Spruce.

	Each	Per 10
18 to 24 inches-----	\$2.50	\$20.00
2 to 3 feet-----	3.50	30.00
3 to 4 feet-----	5.00	45.00
4 to 5 feet-----	7.50	

CHAMAECYPARIS LAWSONIANA (*Lawson Cypress*)—A tall tree with horizontal branches; foliage bright, grayish green. Should not be planted north of the middle states.

	Each	Per 10
18 to 24 inches-----	\$2.50	\$20.00
24 to 30 inches-----	3.50	30.00
30 to 36 inches-----	5.00	

JUNIPERUS (*Juniper*)

Stately trees which are very effective in garden and landscape. There are low forms which make splendid covers for banks and rough ground. They are invaluable for formal effects, many of them having the fine columnar form required for architectural emphasis. They are very hardy.

The following four varieties are creeping or spreading Junipers:

CANADENSIS (*Trailing or Spreading Juniper*)—Especially useful for edging groups of upright evergreens. It does not grow upright, but is spreading.

	Each	Per 10
12 to 15 inch spread-----	\$1.00	\$ 9.00
15 to 18 inch spread-----	1.25	10.00
18 to 24 inch spread-----	2.00	18.00
24 to 30 inch spread-----	3.00	25.00
30 to 36 inch spread-----	4.50	35.00
36 to 42 inch spread-----	6.00	

COMMUNIS DEPRESSA (*Prostrate Juniper*)—Very hardy variety with light bluish foliage. Splendid for rock gardens and locations where broad, low foliage effects are desired.

	Each	Per 10
12 to 18 inch spread-----	\$2.00	\$18.00
18 to 24 inch spread-----	3.00	27.50
24 to 30 inch spread-----	4.00	
30 to 36 inch spread-----	5.00	

PFITZERIANA (*Pfitzer's Juniper*)—One of the most popular Junipers used in foundation planting. It is a grayish green both summer and winter. Grows 6 to 10 feet.

	Each	Per 10
12 to 18 inch spread-----	\$2.25	\$20.00
18 to 24 inch spread-----	3.25	30.00
24 to 30 inch spread-----	5.00	45.00

JUNIPERS (Cont'd)

SABINA (*Savin Juniper*)—A half-erect plant, very good for rock-work. Its graceful stature and unchanging deep green foliage add a solid and enduring tone to a mixed planting.

	Each	Per 10
15 to 18 inches.....	\$2.25	\$20.00
18 to 24 inches.....	3.25	30.00
24 to 30 inches.....	5.00	45.00

The following three varieties are upright growing Junipers:

COMMUNIS HIBERNICA (*Irish Juniper*)—Well known evergreen; distinct and beautiful. Very erect growing, with bluish foliage. Should not be planted where it will be exposed to severe winter conditions.

	Each	Per 10
12 to 18 inches.....	\$.80	\$ 7.50
18 to 24 inches.....	1.00	9.00
24 to 30 inches.....	2.00	17.50
30 to 36 inches.....	2.75	25.00
36 to 42 inches.....	3.25	

EXCELSA STRICTA (*Juniper Stricta*)—A compact and slow-growing Juniper with grayish green foliage. Very desirable for foundation planting, or as a specimen, where a low-growing tree is desired.

	Each	Per 10
12 to 18 inches.....	\$1.50	\$12.50
18 to 24 inches.....	2.25	20.00
24 to 30 inches.....	3.00	27.50
30 to 36 inches.....	4.00	37.50

VIRGINIANA (*Red Cedar*)—The Red Cedar is America's best advertised evergreen. It is found in one form or another, tall and narrow trees, low and bushy trees, and all intermediate shapes, in various localities. Is very hardy, and will withstand severe exposures. Can be trimmed to any desired shape. Truly one of our most useful evergreen trees.

	Each	Per 10
12 to 18 inches.....	\$.50	\$ 4.00
18 to 24 inches.....	.75	6.00
24 to 30 inches.....	1.25	10.00
30 to 36 inches.....	1.75	
36 to 42 inches.....	2.50	

PINUS AUSTRIACA (*Austrian Pine*)—A tall, massive tree, with spreading branches and gray bark. Has long, stiff, very dark green needles.

	Each	Per 10
18 to 24 inches.....	\$2.00	\$18.00
2 to 3 feet.....	3.00	25.00
3 to 4 feet.....	5.00	

BANKSIANA (*Jack Pine*)—A low-growing tree of bushy habit. Foliage bright green. Quite suitable for mass planting, but used extensively for specimen plantings.

	Each	Per 10
3 to 4 feet.....	\$3.50	\$30.00
4 to 5 feet.....	4.50	
5 to 6 feet.....	5.50	

SYLVESTRIS (*Scotch Pine*)—One of the hardiest of the Pines. Grows very dense, with bluish-green foliage. Ultimate height 70 to 80 feet.

	Each	Per 10
2 to 3 feet.....	\$2.50	\$20.00
3 to 4 feet.....	4.00	35.00

Boyd Nursery Company

PICEA ALBA (White Spruce)—A long-lived variety of the Spruce, that will endure much pruning. A very attractive tree of compact, pyramidal form.

	Each	Per 10
12 to 18 inches-----	\$1.25	\$10.00
18 to 24 inches-----	2.00	17.50
2 to 3 feet-----	2.75	25.00

EXCELSA (Norway Spruce)—A hardy, rapid-growing evergreen tree that adapts itself to almost any soil. One of our most extensively planted ornamental evergreen trees, on account of graceful habit of growth.

	Each	Per 10
12 to 18 inches-----	\$1.25	\$10.00
18 to 24 inches-----	2.00	17.50
2 to 3 feet-----	2.75	25.00

PUNGENS GLAUCA (Colorado Blue Spruce)—A beautiful and very hardy tree from the Rocky Mountains. Regularly branched in distinct whorls which diminish in size upwards, forming a very symmetrical tree of narrow pyramidal or conical outline. Leaves glaucous green, rigid and spine-pointed.

	Each
18 to 24 inches-----	\$ 8.00
2 to 3 feet-----	12.00
3 to 4 feet-----	16.00

RETINOSPORA PLUMOSA AUREA (Golden Plumed Cypress)—One of the most popular evergreens, particularly liked for its rich yellow foliage, which shows up well among the somber evergreens.

	Each
12 to 15 inches-----	\$1.25
15 to 18 inches-----	1.50
18 to 24 inches-----	2.00
24 to 30 inches-----	3.00
30 to 36 inches-----	4.00
36 to 42 inches-----	6.00

Norway Spruce

Boyd Nursery Company

PLUMOSA (*Green Retinospora*)—Soft, feathery, light green foliage and very graceful. All Japan Cypresses are splendid for planting around the foundation of the house, and this variety is particularly fine for that purpose.

	Each
12 to 15 inches.....	\$1.25
15 to 18 inches.....	1.50
18 to 24 inches.....	2.00
24 to 30 inches.....	3.00
30 to 36 inches.....	4.00
36 to 42 inches.....	6.00

PISIFERA AUREA (*Golden Sawara Cypress*)—Pyramid shape; foliage bluish green, with gold-tipped branches. Very hardy.

	Each	Per 10
18 to 24 inches.....	\$2.00	\$18.00
24 to 30 inches.....	3.00	25.00
30 to 36 inches.....	5.00	
36 to 42 inches.....	7.50	

SQUARROSA SIEBOLDI—A rather dwarf, compact conifer, with bluish green leaves that take on a purplish tint in cold weather. It is an attractive and noteworthy variety.

	Each	Per 10
12 to 18 inches.....	\$1.50	\$12.50
18 to 24 inches.....	2.25	20.00

SQUARROSA VEITCHI (*Veitch's Silver Cypress*)—A very dense, wide pyramid with beautiful silvery blue foliage, with a feathery texture.

	Each
2 to 3 feet.....	\$3.00
3 to 4 feet.....	5.00
4 to 5 feet.....	7.00

TAXUS CUSPIDATA NANA (*Dwarf Japanese Yew*)—

A very hardy, dwarf hedge plant of dark green foliage, which is unchanging throughout the year. It withstands clipping well, and will thrive in unfavorable locations where other evergreens perish.

	Each	Per 10
12 to 15 inches.....	\$3.00	\$25.00
15 to 18 inches.....	3.50	30.00

THUJA (*Arbor Vitae*)

These are slender, rather formal trees, much used in landscape and decorative work. There are many fine dwarf forms, for tub or specimen use, and they may be kept any shape or height desired for many years, as they endure shearing and pruning well.

occIDENTALIS (*American Arbor Vitae*)—One of the most popular evergreens, because of its easiness to transplant. As a hedge plant, it is very attractive. It is inclined to be conical in habit of growth.

	Each	Per 10
12 to 18 inches.....	\$.75	\$ 7.00
18 to 24 inches.....	1.25	10.00
24 to 30 inches.....	1.75	15.00
30 to 36 inches.....	2.25	20.00
36 to 42 inches.....	3.00	25.00

AUREA (*George Peabody's Golden Arbor Vitae*)—A broad, low-growing evergreen tree. The new growth of yellow or golden color makes it a striking evergreen.

	Each	Per 10
18 to 24 inches.....	\$3.00	\$25.00
24 to 30 inches.....	4.00	35.00

ELLWANGERIANA (*Tom Thumb Arbor Vitae*)—Very dwarf, globe-shaped; bright green during summer, then turning to bronze in winter. A handsome variety.

	Each	Per 10
12 to 15 inches.....	\$1.75	\$15.00
15 to 18 inches.....	2.25	20.00
18 to 24 inches.....	3.00	25.00

THUJAS (*Cont'd*)

GLOBOSA (*Globe Arbor Vitae*)—Forms a perfect globe when full grown. A dwarf sort with light green foliage. The spread usually equals the height.

	Each	Per 10
12 inches high.....	\$2.00	\$18.00
15 inches high.....	2.50	22.50
18 inches high.....	3.00	27.50
24 inches high.....	4.50	

ORIENTALIS (*Chinese Arbor Vitae*)—Similar to the American Arbor Vitae. Dark green foliage, more compact than the American, but both varieties are inclined to grow open when left untrimmed.

	Each	Per 10
12 to 18 inches.....	\$.65	\$ 6.00
18 to 24 inches.....	.85	8.00
24 to 30 inches.....	1.25	10.00

36 to 42 inches.....	3.00	25.00
42 to 50 inches.....	4.50	40.00

AUREA NANA (*Berckman's Golden Arbor Vitae*)—Compact, rounded head and handsome, greenish golden foliage.

	Each	Per 10
12 to 18 inches.....	\$2.00	\$18.00
18 to 24 inches.....	3.50	30.00
24 to 30 inches.....	4.00	
30 to 36 inches.....	4.50	

BONITA—This is a beautiful rich green variety, dwarf or of slow growth.

	Each	Per 10
12 to 18 inches.....	\$2.00	\$18.00
18 to 24 inches.....	3.50	30.00
24 to 30 inches.....	4.00	

Berckman's Golden Arbor Vitae

Boyd Nursery Company

COMPACTA (*Compact Arbor Vitae*)—More compact or dense foliage than the Chinese, and of a finer, lighter green. Broad, cone-shaped growth. Very beautiful.

	Each	Per 10
12 to 18 inches-----	\$1.50	\$12.50
18 to 24 inches-----	2.50	20.00
24 to 30 inches-----	3.50	30.00
30 to 36 inches-----	4.50	

BAKER'S ARBOR VITAE—A very hardy, compact-growing variety. Pyramidal in growth, with light green foliage.

	Each	Per 10
24 to 30 inches-----	\$3.50	\$30.00
30 to 36 inches-----	5.00	45.00
36 to 42 inches-----	6.50	

ELEGANTISSIMA—Beautiful golden-tipped pyramid. Very attractive. Foliage colored bright yellow in the spring and yellowish-green afterwards. One of the best.

	Each	Per 10
18 to 24 inches-----	\$2.50	\$20.00
24 to 30 inches-----	3.00	25.00
30 to 36 inches-----	4.50	40.00

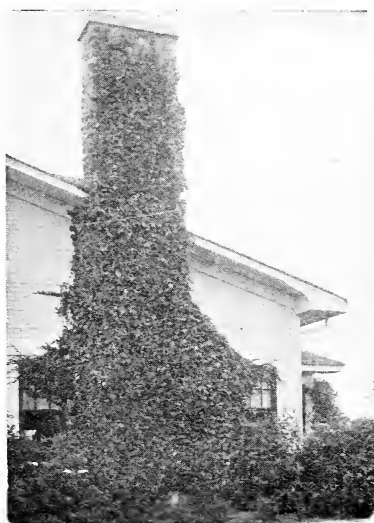

PYRAMIDALIS (*Pyramidal Arbor Vitae*)—A compact, pyramidal Arbor Vitae, reaching a height of about 15 feet. Bright green, and holds its color well.

	Each	Per 10
18 to 24 inches-----	\$2.50	\$20.00
24 to 30 inches-----	3.00	25.00
30 to 36 inches-----	4.50	40.00
36 to 42 inches-----	6.50	55.00

TSUGA CANADENSIS (*Hemlock Spruce*)—A broadly pyramidal, medium-sized tree of dense growth, with rich green foliage and drooping branches. It is excellent as a single lawn tree, or for hedge purposes. It is a beautiful soft green the year round.

	Each	Per 10
15 to 18 inches-----	\$2.25	\$20.00
18 to 24 inches-----	3.00	25.00

CLIMBING VINES

AMPELOPSIS QUINQUEFOLIA (*Virginia Creeper*)—Large, deeply cut leaves that turn beautiful crimson in the fall. Does not cling to stone or brick, but makes a quick and rampant growth, covering entirely any objects that offer support.

	Each	Per 10
Two-year transplanted	\$.25	\$2.00
Three-year transplanted40	3.50

A. VEITCHI (*Boston Ivy*)—One of the finest climbers for covering walls, as it clings firmly to the smoothest surface. The leaves turn to brilliant orange and crimson in the fall.

	Each	Per 10
Medium	\$.30	\$2.50
Two-year transplanted50	4.00

ARISTOLOCHIA SIPHO (*Dutchman's Pipe Vine*)—A very vigorous growing vine producing in abundance a purplish blossom, much resembling a pipe.

	Each	Per 10
Two year	\$.85	\$7.50

A. TOMENTOSA (*Dutchman's Pipe Vine*)—Yellowish or brownish, pipe-shaped flowers. Highly useful for its large leaves.

	Each	Per 10
One-year seedlings	\$.30	\$2.50
Two-year transplanted40	3.50

BIGNONIA RADICANS (*Trumpet Vine*)—A native, hardy, strong climbing vine, with good leaves and scarlet, trumpet-shaped flowers in summer.

	Each	Per 10
One year	\$.25	\$2.00
Two year40	3.50

CLEMATIS PANICULATA (*Japanese White Clematis*)—One of the best and most satisfactory climbing flowering plants. The small, creamy white, star-shaped flowers are delicately fragrant, blooming in late summer in wild profusion.

	Each	Per 10
Two-year plants	\$.50	\$4.00

EUONYMUS RADICANS—A very dependable species of Euonymus. Slow growing, but useful as a ground cover. The thick, bright green leaves persist all winter.

	Each	Per 10
Two year	\$.50	\$4.00

HEDERA HELIX (*English Ivy*)—The famous English Ivy, with its familiar green leaves. Clings to stone and grows to great height, covers walls entirely. Fine for the South, but hardy only as a ground cover, where there are severe winters with sudden changes.

	Each	Per 10
Small plants	\$.25	\$2.00
Transplanted50	4.00

SHRUBS SUITABLE FOR HEDGES

BABY RAMBLER ROSES—For low hedges, these are excellent. Give a wide range of color.

BERBERIS THUNBERGII—One of the finest and hardiest.

ALTHEAS (*Hibiscus Syriacus*)—In varieties. For large screens.

LIGUSTRUM—Both Amur River and California are almost indispensable for such planting. Very rapid growers.

PHILADELPHUS—In variety. Fine for screening, and where a tall informal hedge is desired.

RHODOTYPOS—Makes a beautiful informal hedge 6 to 8 feet high.

SPIREA ANTHONY WATERER—Makes a beautiful low hedge. Plant about 12 inches apart in row.

SPIREA VAN HOUTTEI—Fine for hedge or screen. Should be largely used. Plant about 18 inches apart for hedge purpose.

ROSES

Lady Hillingdon

"The Queen of Flowers"

What melody is to music—the rose is to the realm of flowers. It holds a warmer place in the hearts of the people than any other flower, delighting the eye with its perfection of form and color, and rendering the air fragrant with its perfume. Every home should have its rose garden.

	Each	Per 3	Per 10
Strong, field-grown.....	\$.75	\$2.00	\$6.50

PINK ROSES

COLUMBIA (HT)—A glowing shade of pink with long stiff stems; very nearly thornless.

KILLARNEY (HT)—Brilliant, silvery pink; free bloomer and strong grower. A great favorite.

MAMAN COCHET PINK—Extra fine bloomer. Flowers are deep rose-pink, inner side of petals silvery rose, and very double.

PAUL NEYRON (HP)—Immense, bright, shining pink blossoms all summer. Finely scented.

RADIANCE (HT)—Buds are a rosy carmine, changing to light carmine pink on the outside and light silvery pink inside. Strong upright stems.

YELLOW ROSES

ALEXANDER HILL GRAY (T)—Clear, bright lemon yellow throughout; clean, vigorous grower.

ETOILE DE LYON (T)—Bright sulphur-yellow; buds and bloom of large size and fine form, a strong, healthy, vigorous grower. One of the most beautiful Tea roses for general planting.

LADY HILLINGDON (T)—Large full flowers of apricot-yellow color with coppery tints. A free bloomer; strong and vigorous.

LOS ANGELES—Flowers large and continuous, in color a flame-pink, toned with coral and shaded with translucent gold at the base of the petals.

LUXEMBOURG—A fine, large fully double rose of vigorous branching habit, and unusual freedom for the color, which is a rich golden yellow.

MRS. AARON WARD (HT)—Very large and full coppery yellow flowers.

SUNBURST (HT)—An orange-copper or golden orange color. Blooms keep for a long time after being cut.

RED ROSES

AMERICAN BEAUTY—Dark pink, shaded with smoky carmine; full globular form and most deliciously fragrant. Blooms with unusual freedom over a long season.

GENERAL JACQUEMINOT (HP)—Bright, shining crimson; very fragrant; good bloomer.

GRUSS AN TEPLITZ—An old favorite red rose, always covered with its bright cherry-crimson flowers, which often cover the plant, and which are intensely fragrant. A large bush, very hardy.

RADIANCE RED—Similar in growth to Pink Radiance, but has long, bold cerise red flowers, which are borne on long, heavy stems. A mighty good rose.

WHITE ROSES

BESSIE BROWN (HT)—Very light flesh color; massive double blooms; hardy, free bloomer.

WHITE KILLARNEY (HT)—Pure snow white; blooms of perfect form and of Killarney habit.

FRAU KARL DRUSCHKI (HP)—White American Beauty. Flowers pure white; perfect in form; strong grower and perfectly hardy.

KAISERIN AUGUSTE VIKTORIA (HT)—Creamy white; very double. Best white Hybrid Tea rose grown.

MAMAM COCHET WHITE—A white form of the Pink Maman Cochet, with outer petals flushed with pink. A fine rose for Northern gardens.

CLIMBING ROSES

AMERICAN PILLAR—Flowers are produced in great profusion, fairly covering the bush. The color is bright pink.

BABY RAMBLER—The best known Rambler rose. Immense clusters of small, double, crimson blooms. Very pretty and showy.

DOROTHY PERKINS—The brilliant pink Rambler rose. The bush is perfectly hardy in all localities. Beautiful miniature flowers of brilliant shell-pink in splendid pendulous sprays. Foliage deep green the entire season.

DR. W. VAN FLEET—Pale pink buds and flowers, equal in form and size to any of our bush roses, borne on long stems, in midseason; blooming over a period of three weeks or more. One of the best of all climbers. Its long stems and blooms are ideal for cutting.

EXCELSA—Double, scarlet crimson blooms with light streaks and shades. Clusters very large and produced with profusion. Rapidly displacing the old Crimson Rambler.

MADAME PLANTIER—Flowers are pure white, very large and double. Continuous bloomer. One of the best hardy climbing roses.

PAUL'S SCARLET CLIMBER (HW)—Vivid scarlet shaded crimson; blooms persist for a long time. A vigorous climber and most satisfactory of climbing roses.

SILVER MOON (HW)—Covered in the spring with large, silvery white flowers; vigorous growth.

WICHURAIANA—The Memorial Rose. Pure shining white, with bright golden center. Single large blossoms, glossy dark green leaves.

One-year strong -----	.50	3.50
Two-year medium -----	.75	4.00

APPLES

Summer Apples

EARLY HARVEST — Medium size, pale yellow, slightly acid and of good quality and small core. Popular for table and cooking. A really worthwhile early June apple.

YELLOW TRANSPARENT—Medium size, greenish-yellow, thin, tender skin. Flesh white, good quality, juicy and slightly sub-acid. Medium core. An unusually hardy, strong, upright grower. One of the first to ripen. June.

HORSE—Large size; greenish-yellow skin; acid. One of the best cooking and drying apples. Known everywhere. Heavy bearer. July and August.

Autumn Apples

GRIMES—"Grimes Golden." Medium, round, oblate; skin is a clear yellow with small dots; flesh yellow, crisp, rich with a mild sub-acid flavor. A very dependable and uniform bearer. October.

Winter Apples

DELICIOUS—Large uniform size, round and long tapering with a ribbed nose. Dull dark red, streaked with yellow. Fine grained, crisp, juicy, mild, but not sweet. Tree is hardy, vigorous, very productive and splendid keeper and shipper. Late Fall.

ARKANSAS BLACK—Large size, blackish red; resembles the Winesap. Keeps well and retains its good flavor and taste; slightly sub-acid. A real good apple and very productive.

WINESAP—Medium size. dark red apple of good quality that keeps well through the winter. Flesh firm, crisp, rich, sub-acid.

STAYMAN WINESAP—Larger and more prolific than the old Winesap. Dark red, flesh firm, yellowish white, crisp and juicy with rich, pleasing sub-acid flavor. A strong grower, good keeper and heavy bearer that always tastes good.

The following prices are for strong two-year trees. If one-year trees are wanted, write for special prices:

	Each	Per 10	Per 100
3 to 4 feet, 7/16" caliper-----	\$.30	\$2.50	\$20.00
4 to 5 feet, 9/16" to 11/16" caliper	.40	3.50	30.00
5 to 6 feet, 11/16" caliper up----	.65	6.00	45.00

PLUMS

ABUNDANCE—Pale amber turning to red; yellow, sweet flesh.

BURBANK—Large, deep red, with yellow flesh; juicy and sweet; tree vigorous and strong.

KELSEY'S JAPAN—Covered. Fruit flavor rich, pleasant quality, excellent prolific and bears while young.

SHROPSHIRE DAMSON—Skin purplish black, flesh golden yellow. Season late; fruits small in size.

PRICES, ALL VARIETIES OF PLUMS

	Each	Per 10	Per 100
3 to 4 feet, 7/16 to 9/16" caliper—	\$.45	\$4.00	\$35.00
4 to 5 feet, 9/16 to 11/16" caliper	.60	5.00	40.00

PEACHES

Freestone

MAYFLOWER (*Neva-Myss, Early Wonder*)—The best early variety, ripening latter part of May and early June. Fruit medium size, round, entirely covered with red; fair quality and good shipper. Tree is vigorous and good grower; blooms late and seldom misses a crop.

CARMAN—Large size; creamy white with reddish cheek on sunny side; flesh very tender and of fine flavor. An exceedingly profitable variety for commercial orchards or for canning. Ripens last of June to first of July.

BELLE (*Belle of Georgia*)—Very large; skin white with red cheek; flesh white, firm; excellent flavor; very prolific and excellent shipper.

Tree vigorous and rapid grower. Fruit ripens from middle to last of July.

ELBERTA—The best-known variety. Large size, yellow skin with red cheeks; flesh yellow, juicy and of good flavor. Ripens last of July and early August.

J. H. HALE—A large, smooth peach having no fuzz. Extra large size; creamy yellow overspread with rich red; flesh yellow, red pit, juicy, fine grained, sweet and of excellent flavor. One of the most popular for home and commercial use. Ripens about two weeks before the Elberta—middle to last of July.

STUMP O' THE WORLD—A white-fleshed peach of excellent quality; melting, juicy, rich and good. Trees are large, hardy, vigorous, and productive.

PRICES ALL VARIETIES OF PEACHES:

	Each	Per 10	Per 100
2 to 3 feet.....	\$.20	\$1.75	\$15.00

PEARS

BARTLETT—Best known and a great favorite. Golden yellow with red cheek, fine grained, melting, of delicious quality. Bears when very young.

GARBER—Tree free from blight, immensely productive, fruit large, resembling the Kieffer but ripens two or three weeks earlier.

KIEFFER—A seedling of the Chinese Sand Pear. Fruit large to very large. The Kieffer is not a high quality Pear, but is excellent for canning and cooking; bears regularly every year.

PINEAPPLE—A strong, vigorous grower, which is very productive. Tree is practically blight proof, and has proven one of the best for southern planting.

PRICES, ALL VARIETIES OF PEARS:
